PAST PERFORMANCE

- Logistics Modernization Project (LMP) with the **Dept. of Army on LMP** from 2018 to 2023.
- HANA migration project with **US Department of Agriculture (USDA)** in 2016. Project involved migration of data from Oracle DB to HANA DB on cloud.
- FMMI Project with **US Dept. of Agriculture** in 2014 to help with their existing SAP system.
- Collaborated with various companies in the private sector on SAP implementation and HANA-related projects, delivering custom development, comprehensive testing, and post-go-live support.

KEY DIFFERENTIATORS

Certified Resources: We only provide industry certified (like SAP BW, HANA, PMP etc.) and verified resources to our clients who are amongst the best in their field.

Customized Solutions: We realize that every client is unique therefore we provide solutions that are client specific, not technology or product dependent.

Client Empowerment: We believe in client empowerment which is why we work seamlessly with our clients' existing teams to allow collaboration and fluid knowledge transfer.

Diversified Experience: Experience working in different industries by working with multiple clients from oil companies to construction firms to just a name a few.
